JOINT NOTICE OF PRIVACY PRACTICES

This notice describes how medical information about you may be used and disclosed, and how you can get access to this information. Please review it carefully.

Island Hospital respects your privacy. It is required to maintain the privacy of your health information and to provide you with a notice (“Notice”) of its legal duties and privacy practices. We understand that your personal health information is very sensitive. Island Hospital will not use or disclose your health information except as described in this Notice. We will not disclose your information to others unless you tell us to do so, or unless the law authorizes or requires us to do so. This Notice applies to all of the medical records generated by Island Hospital and its personnel, volunteers, students and trainees. This Notice also applies to other health care providers that come to Island Hospital to care for patients, such as physicians, physician assistants, therapists, and other health care providers who are not employed by Island Hospital, such as ambulance services and emergency medical technicians who may have brought you to the Hospital, unless those other providers give you their own Notice that describes how they will protect your medical information. The Hospital and these other health care providers work together to provide you with care and they will share your health information with each other as necessary to care for you, to obtain payment for that care, or for health care operations purposes, such as quality assessment and utilization review.

The law protects the privacy of the health information we create and obtain in providing our care and services to you. For example, your protected health information includes your symptoms, test results, diagnoses, treatment, health information from other providers, and billing and payment information relating to these services. Federal and state law allows us to use and disclose your protected health information for purposes of treatment and health care operations. Island Hospital is required to follow the privacy practices that are described in this Notice (which may be amended from time to time).

YOUR HEALTH INFORMATION RIGHTS

The health and billing records we create and store are the property of Island Hospital. The protected health information in it, however, generally belongs to you. You have a right to:

- Receive, read, and ask questions about this Notice.
- Ask us to restrict certain uses and disclosures. You must deliver this request in writing to us. We are not required to agree to any restriction you may request, except if your request is to restrict disclosing protected health information to a health plan for the purpose of carrying out payment or health care operation, the disclosure is not otherwise required by law, and the health information pertains solely to a health care item or service which has been paid in full by you or another person or entity on your behalf. But we will comply with any request granted.

- Request and receive from us a paper copy of the most current Notice of Privacy Practices for Protected Health Information (“Notice”).
- Request that you be allowed to see and get a copy of your protected health information. You must make this request in writing. We have a form available for this type of request.
- Have us review a denial of access to your health information—except in certain circumstances.
- Ask us to amend your health information. You must give us this request in writing. You may write a statement of disagreement if your request is denied. It will be stored in your medical record, and included with any release of your records.
- When you request, we will give you a list of disclosures of your health information. The list will not include disclosures made for purposes of treatment, payment or health care operations, disclosures you authorized, disclosures to you, incidental disclosures, disclosures to family or other persons involved in your care, disclosures to correctional institutions, and law enforcement in some circumstances, disclosures of limited data set information or disclosures for national security. You may receive this information without charge once every 12 months. We will notify you of the cost involved if you request this information more than once in 12 months.
- Ask that your health information be given to you by another means or at another location. Please sign, date, and give us your request in writing.
- Cancel prior authorizations to use or disclose health information by giving us a written revocation. Your revocation does not affect information that has already been released. It also does not affect any action taken before we have it. Sometimes, you cannot cancel an authorization if its purpose was to obtain insurance.
- Receive a notification if we discover a breach of your protected health information, according to requirements under federal law.
